PIN OAK

FLOWERING CRAB-APPLE

Introduction ~

IN 1848, just 109 years ago this spring, Stephen Hoyt, great grandfather of our present president, started in the nursery business on the very site where our Nursery stands today.

In the early years only a few acres of trees were grown; propagation consisted almost entirely of fruit trees, since there was little demand for ornamental plants at that time. Later on through the years, flowering shrubs, evergreens, and an almost complete line of nursery stock were added, until we now grow nearly all varieties of trees and shrubs which thrive best in this locality.

We sincerely thank our many thousands of friends for their liberal and ever-increasing patronage that has enabled this Nursery to grow until we now have several hundred acres under cultivation, covered with thousands of plants.

During the past hundred years, we have always attempted to grow only the best nursery stock. In the future we aim to offer still finer plants and better service.

NOTICE TO CUSTOMERS

◀ This catalog lists our trees and shrubs, but to appreciate them fully you should see them. Come over to the nursery and look around.

◀ **OUR MATERIALS** and service are available to you directly or through your Landscape Architect.

◀ **PLANTING** begins in the spring as soon as frost is out of the ground and extends through April, May and June. Fall planting begins in August and extends through December, or until the ground freezes. When the season is far advanced, we reserve the right to ball and burlap (B&B) at extra charge, those items not so listed, to insure success in transplanting.

BUSINESS HOURS

SPRING SEASON (April and May) and FALL SEASON (October and November) the Nursery will be open from 7:30 A.M. to 5:00 P.M. weekdays. Sundays from 9:00 A.M. until 12:00 noon and from 1:30 P.M. to 4:00 P.M.

During SUMMER AND WINTER MONTHS we are open from 7:30 A.M. to 5:00 P.M. *Sundays* by appointment only. No stock dug Sundays.

◀ **PRICES**—in this list do not include cost of delivering and planting. Plants are priced for our selection only. Specimen plants, many of which are not included in this list, will be charged for according to their individual value when selected by you. All quotations offered are subject to prior sale. These prices supersede all others and are subject to change without notice.

◀ **DELIVERIES** — pro rated charge on scheduled trips. Special deliveries conflicting with normal schedule will be arranged and charged for at cost.

◀ **TERMS**—Cash or satisfactory references must accompany all orders.

GUARANTEE

We guarantee to replace, at one-half original purchase price, any plant or tree that we have supplied, which dies from natural causes within a period of one year, provided the plants have been properly cared for, and provided payment has been received in 30 days or as arranged. The cost of delivering and planting of replaced material is borne by the purchaser and replacement is made at our convenience.

Acer saccharum (Sugar Maple)

Ornamental and Shade Trees

Possibly the most attractive feature of many of our New England towns is their large shade and ornamental trees.

SHADE TREES transplant best during the Fall and Winter seasons. Therefore our policy for planting Shade Trees is: **WE WILL PLANT ONLY FROM NOVEMBER UNTIL MARCH 31st.**

It is important to plant some of these trees each year, since it takes from ten to twenty-five years to produce a good-sized specimen. Plant medium-sized trees and they will grow rapidly into lofty specimens.

For over half a century, our Nursery has been moving medium and large-sized shade trees successfully. We have growing in our Nursery many varieties that do well in this locality.

Ornamental and Shade Trees

Acer • Maple

ACER palmatum atropurpureum. *Japanese Red Maple.*

A fine semi-dwarf, red-foliaged tree that stands out in any location. Each

1½ to 2 ft., B&B.....	\$12 50
2 to 3 ft., B&B.....	15 00
3 to 3½ ft., B&B.....	20 00

A. platanoides. *Norway Maple.*

A beautiful, full, round-topped Maple with large green leaves. Casts a very dense shade. Holds foliage till late fall. Yellow autumn color.

A. platanoides schwedleri. *Schwedler Maple.*

A variety of the Norway Maple with rich purple-red leaves in early spring, changing to dark green in midsummer.

A. saccharum. *Sugar or Rock Maple.*

The most gorgeous Maple for fall color, ranging from yellow to a vivid scarlet. Upright and stately in growth.

Sizes and prices of above three varieties:

2 to 2½-in. cal., 12 to 16 ft. high, B&B.....	32 50
2½ to 3-in. cal., 14 to 18 ft. high, B&B.....	40 00

Betula • Birch

Our Policy Regarding Planting of Birch

Birch must be planted in the winter season. This season starts in January and extends through March.

BETULA alba laciniata. *Cut-leaf Weeping Birch.*

Deeply cut green leaves on white branches that droop gracefully to the ground like a large fountain. Each

6 to 8 ft., B&B.....	\$15 00
8 to 10 ft., B&B.....	20 00
10 to 12 ft., B&B.....	25 00

Fagus sylvatica atropurpurea (Copper Beech)

Ornamental and Shade Trees

Fagus • Beech

FAGUS sylvatica. *European Green Beech.*

Attractive green leaves. Grows slowly into beautiful specimens. Makes excellent hedges and screens.

F. sylvatica atropurpurea. *Copper Beech.*

One of our finest lawn trees, with wine-colored leaves in spring and early summer, fading to copper in July. This tree is one of the hardiest in the nursery.

F. sylvatica pendula. *Weeping Green-leaf Beech.*

Similar to European Green Beech, but with drooping branches and more dwarf in growth.

Sizes and prices of Fagus, on application.

GLEDITSIA, Moraine. *Moraine Locust.* Plant Pat. 836.

A new shade tree which is thornless and seedless. Resistant to disease and insect damage. Absence of seed pods and the quick crumbling of leaves make this tree ideal from the garden maintenance standpoint.

	Each
6 to 8 ft., B&B.....	\$15 00
8 to 10 ft., B&B.....	20 00

LIQUIDAMBAR styraciflua. *Sweet Gum.*

A fine pyramidal tree with large maple-like leaves which turn a blazing scarlet in the fall. Bark of corky texture. Suitable for swampy conditions as well as higher ground.

QUERCUS palustris. *Pin Oak.*

Sturdy, pyramidal, rugged, and irregular. Grows rapidly. Deeply cut green foliage turns rich crimson in fall. A swamp tree which can be planted to advantage in any type of soil.

Sizes and prices of Liquidambar and Quercus:	Each
1½ to 2-in. cal., 8 to 12 ft. high, B&B.....	\$27 50

5 to 6-in. cal., 18 to 25 ft. high, B&B.....	225 00

Larger sizes on application.

PLATANUS orientalis. *European Plane.*

Large, picturesque, fast-growing tree, easily recognized by its gray and white bark. Most useful for streets, parks, seashore, and rough situations where a tough durable specimen is required. Resists insects.

SALIX, Niobe. *Golden Weeping Willow.*

Fast growing, with fine foliage. Distinct in winter, due to its golden bark. A graceful weeper.

SORBUS aucuparia. *Mountain-Ash.*

Well known in Europe for its great clusters of orange-red fruit. The robins in this country love these berries.

Sizes and prices of Platanus, Salix and Sorbus:	Each
6 to 8 ft., B&B.....	\$10 00
8 to 10 ft., B&B.....	12 50
1½ to 2-in. cal., 8 to 10 ft. high, B&B.....	22 50
2 to 2½-in. cal., 10 to 12 ft. high, B&B.....	27 50
2½ to 3-in. cal., 12 to 15 ft. high, B&B.....	40 00

Cornus florida (White-Flowering Dogwood)

Flowering Trees

There is probably no group of deciduous plants as popular or well known as this one. Their interesting habits of growth, glossy foliage, and gorgeous spring blooms, followed by attractive fruit of many colors in late summer and fall, make them an all-year-round satisfaction. Trees in this group thrive in almost all kinds of soil, and most varieties are very hardy. They flower best in full or partial sunshine.

CERCIS canadensis. Redbud; Judas-Tree.

Broad, irregular, vase-shaped tree that flowers from stem to tip before leaves appear. Flowers are rosy pink. A fine plant for wooded areas.

	Each
5 to 6 ft., B&B.....	\$12 50
6 to 7 ft., B&B.....	17 50
7 to 8 ft., B&B.....	30 00

Cornus • Dogwood

CORNUS florida. White-Flowering Dogwood.

The early spring beauty of its pure white flowers, the summer freshness of its soft green leaves, and the fall splendor of brilliant scarlet foliage and orange-red berries, as well as its individual habit of growth, make this tree outstanding.

	Each
4 to 5 ft., B&B.....	\$7 50

2 to 2½ ft., B&B.....	15 00

Flowers of *Crataegus monogyna* (Paul's Hawthorn)

Flowering Trees

Malus • Flowering Crab-Apple

These hardy flowering Crab-Apples thrive in almost all locations and exposures. No other flowering tree or bushes give such a profusion of bloom in the springtime. In the autumn they are adorned with clusters of fruits in many colors. Crab-Apples do best in a sweet, well-drained soil and require full sunshine for best results.

MALUS atrosanguinea. *Carmine Crab-Apple.*

Single, dark pink flowers in May, shading into light crimson. Broad, shapely grower. Miniature yellow fruit in fall.

✓ M. floribunda. *Pink and White Crab-Apple.*

Light pink flowers in May, followed by attractive tiny yellow and pink-cheeked apples in fall.

M. halliana parkmani. *Parkman Crab-Apple.*

Hanging clusters of pink flowers. Semi-dwarf in growth.

✓ M., Hopa. *Hopa Red Flowering Crab-Apple.*

Rose-red flowers; red fruit. Hardy variety similar to *M. purpurea eleyi* with reddish leaves, but tree spreads more.

✓ M. purpurea eleyi. *Eley Crab-Apple.*

A free-blooming, deep pink Crab-Apple with reddish foliage. Flowers in May. Bears miniature red fruit in fall.

✓ M. scheideckeri. *Scheidecker Crab-Apple.*

Large, semi-double, pink flowers. Formal, upright grower. Bears waxy yellow fruit.

Evergreens

Evergreens give permanent beauty all the year, carrying their beautiful richly colored foliage through the winter when deciduous trees and shrubs are leafless. Every home-builder, no matter how small the grounds, needs them. They not only provide privacy, but are indispensable for shelter and wind-breaks, hedges, backgrounds, and specimens in landscape work. The slow-growing and spreading varieties such as Yews and Junipers are available for use in house and garden plantings. Practically all evergreens require light and air. Yews and Hemlocks are the most tolerant of shade.

Azaleas

Happily situated by being planted in full sunshine but protected from winter winds, Azaleas produce brilliant blossoms of many colors. They want an acid soil, and during blooming time require an abundance of moisture. Some of our native types grow into fairly large bushes, but most Azaleas seldom attain a height of more than 3 or 4 feet.

Hardy Evergreen Shrubs

The importance of this class of plant material has long been recognized by many garden lovers. Since most are evergreen, they present an attractive appearance in both summer and winter. They are comparatively slow growers, are easy to keep in bounds, and grow more beautiful with age. All of these varieties grow best in a somewhat acid soil, lightened by plenty of leaf-mold or peat moss, and some require protected locations for best results. Certain varieties may be used with success in plantings in the shade.

All B&B (Balled and Burlapped) except where otherwise noted
